Sprint 1 Write-up

Technical details

Released

Monday, 25.02.2019 at 21:00

Deadline

Tuesday, 5.03.2019 at 21:00

Duration

8 days

Objective

This sprint is intended to quickly get you started with the project. The code you write in this sprint will be the code-base for subsequent sprints. As such, make sure the program runs.

The objectives for this sprint are as follows:

• Gain familiarity with the tools for the project.

• Build a first functional user-interface for the program.

Deliverable

By the end of this sprint you are expected to have built a working program which outputs a string of text (e.g. "Hello World!") on its own window.
